PROFILE

Architect with a strong background in architectural design, 3D modelling and visual representation. I like to work across scales, from the urban strategy to the 1:25 detail, and to carry a project from the first sketch to permit drawings, interiors and the images that present it. Familiar with construction processes, technical detailing and the Greek Building Regulation (NOK), I focus on functional, well-designed spaces with attention to materiality, light and the people who use them.

EXPERIENCE

Jul 2026 - present	**Architect, Nova Constructions** Athens.
2025 - present	**Architect, independent residential projects** Athens and Piraeus. New apartment building, interior renovations, cost and time planning.
Mar 2025 - Jun 2026	**Architect, Restone Architectural Office** Athens. Surveys, restoration and renovation of houses in Attica, Corfu and the islands, permit drawings, 3D visualisation.
Jun - Oct 2023	**Architect, Paly Architects** Athens. Drawings and 3D models for residential projects.
